(LBS02)

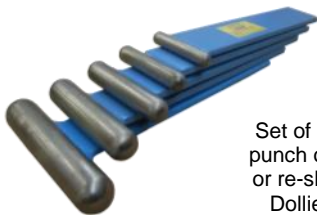

Lead Bossing Stick / Bats are used for quick and easy forming of sheet metal.

(LBS01)

Leather Sand Sack unfilled. Used for padding when beating or smoothing metal. The sand sack should be filled with fine sand, and has a Velcro opening which can be closed by gentle hammering. (LSB450)

Set of 5 T-Dollies are used to punch out small curves, edges or re-shape damage etc. The Dollies are designed to be mounted in a vice (not included). (TD01)

Leather Sand Sack filled with Fine Sand. Used for padding when beating or smoothing metal. (LSB300)
