Hand Operated Folder - Straight
 With Shear
 2500mm x 1.0mm (SF2540)

MANUAL FOLDERS - STRAIGHT are available in various models to accommodate different lengths and thicknesses of material. Some folders include angled stops for repetition bends and the SF2500 comes complete with a Rotary Shear. WNS 20swg (1.0mm) FLANGE FOLDER is the ideal machine when forming regular sized flanges. Designed to create a right angle flange on pre-cut sheet, this machine provides quick and easy folding of material up to 1.0mm thickness. There is no need to keep measuring, nor clamping. The Flange Folder also has the advantage of being 'open ended' allowing the user to also form inside flanges. Ideal for use with Pittsburgh Lock Rollformers.
