Square to Round Forming Machine
 Manual - Foot Operation
 (SR20F)

Square to Round Forming Machine
 Pneumatic - Foot Operation
 (SR20A)

WNS offer two models of Square to Round Duct Forming Machines. Pneumatic or manually foot operated. Both models can form 1.0mm thick metal up to 450mm long and 0.8mm up to 600mm long giving accurate and consistent forms. The pre-cut blank is located on a pivot at one end, which allows the blank to turn. If required complete square to rounds can be formed leaving just one seam to be joined. Also, offset fitting can be formed.

SPECIFICATIONS								
Model	Capacity	PSI	Air Inlet	CFM	Length	Width	Height	Weight
SR20A	1.0mm	90	¼"	4.5	1000mm	450mm	1000mm	30Kg
